

*We love the
colour-changing
LED lights.*

MODERN MINIMALIST

"This renovation involved removing walls and an oversized pantry to create a contemporary kitchen that was minimalist and open. Neutral colour tones were used to keep the space clean and timeless, the focus on the sophisticated use of materials and finishes. The cabinetry creates strong, clean lines and a 'boxed' style portrays refinement. Aluminium-framed glass insert doors complement the beautiful appliances and reflect light within the space. This has provided an element of elegance while creating a strong core to the design. Gorgeous Statuario Venato marble is used on the splashback and underside of the island bench to create a unique, striking feature that can be seen from the stairwell. Environmentally friendly LED lighting has been applied extensively throughout the space, giving it a luminescent appeal. The renovation has created better traffic flow from the stairwell to the kitchen space and has made it open, sleek and perfect for entertaining."

Designer: Kim Duffin Design for Sublime Architectural Interiors

EXPERT TIP

Use a neutral colour scheme for a kitchen that will never go out of style.

SHOP THE LOOK
