

SUBLIME ARCHITECTURAL INTERIORS

THE DESIGN INNOVATORS

IT ALL STARTS WITH A GREAT DESIGN

When you are one of the industry's most respected and experienced space planners, it's only logical that awards and accolades follow. Having won more than 60 regional, state and national awards, the team at Sublime Architectural Interiors knows how to create a space that is more than just somewhere to store, prepare and cook food. The new space makes life easier and interacting with your family and friends more enjoyable.

Sublime Architectural Interiors, based in Brisbane, was established by Kim Duffin (CKD Au, CBD Au)(pictured next page) with the support of his wife, Rebecca, in 2006. During this time Kim has been awarded the top gong – Australian Kitchen Design of the Year – three times from the leading industry bodies of the Housing Industry Association (HIA) and the Kitchen and Bathroom Design Institute (KBDi).

In 2012, Sublime Architectural Interiors was awarded from the HIA both the Australian Kitchen Design of the Year and Australian Kitchen of the Year. This was the first time that the company had taken out both awards in the same year.

The first kitchen pictured here was designed by Kim to help the occupants capture their unique surrounds of native Australian bush by bringing the outside in and using features such as frameless windows in splashbacks and digitally printed glass to blur the lines between indoor and outdoor living.

Most would agree that this kitchen was a worthy winner at the 2012 HIA Australian Housing awards and the 2011 KBDi Kitchen and Bathroom awards.

During 2012, Sublime Architectural Interiors also completed two new kitchen and living displays. A new design studio is located at the Sumner Park head office. This space gives visitors the opportunity to view concepts such as a dining/bench space solution using a Linak lift system, Caesarstone's new Concetto range, Blum drawer and door hardware and a sample of appliances from Neff and Gaggenau.

Located in Virginia in the northern suburbs of Brisbane, Sublime Architectural Interiors has partnered with Electronic Living (www.electronicliving.com.au), to help create an Experience Centre where visitors can see how kitchens, bathrooms and media rooms can be enhanced by using the latest technology. The Experience Centre was awarded the 2012 HIA Queensland Outstanding Showroom of the Year.

The luxury kitchen on display features a motorised backlit Caesarstone Concetto benchtop, mirror TV in cabinetry, invisible speakers, in-wall touch panel and premium Swiss appliances.

The studio at Sumner Park can be visited between 9am and 2pm, Monday to Friday or by appointment outside of these hours. The Experience Centre can be viewed by appointment only.

Sublime Architectural Interiors is Queensland's most awarded kitchen designer and project manager. With the kitchen becoming the focal point for most homes, the experience, innovation and reliability offered by Sublime Architectural Interiors would be of benefit to anyone looking to renovate or build a new home.
